- Good knowledge in using Testing Tools (**JIRA, Selenium IDE, Trello, Postman, Blazemeter, JMeter**)
- Microsoft Azure Machine Learning
- Visual Basic
- Adobe Photoshop
- Microsoft Office

## EXPERIENCE

### **AIX SUPPORT ENGINEER - IBM MALAYSIA SDN BHD**

(JULY 2019 – JULY 2020)

Specialized in system administration for AIX Hardware Support. As assistant for the 'Preventive Maintenance Process', I conducted systems and servers checking, documentation and resolved at least 95 percent of customer problems. When onsite to replace server hardware parts, I enjoyed interacting with customers, improving the customer-company relationship and solving customer request.

### **ASSISTANT DEVELOPER - P&M EMPIRE GROUP SDN BHD (PART TIME ONLINE)**

(JUNE 2018 – JULY 2019)

Monitored and updated the mapping details of the company system for each country and the suppliers connected to each place and edited coding of the websites

### **INTERNSHIP AS ASSISTANT DEVELOPER - P&M EMPIRE GROUP SDN BHD**

(MARCH 2018 – JUNE 2018)

Maintained the company websites, designed and affiliated platform with white based solution to integrate client's websites in a complete platform

Was in charge of the mapping hotels and destination for each country which required me to monitor the mapping files and edit coding of the websites. I also contributed my design ideas and opinions for the website design which was accepted by the IT team.

**INTERNSHIP AS IT SYSTEM SUPPORT - PALMBEACH HOLIDAYS SDN BHD**

(MARCH 2016 – JUNE 2016)

Maintained the company IT system

Checked and updated the customer visa details in the system, checked and updated the correct hotel room prices for each places in the booking system, added new information as necessary.
